# About our Business

Plastrue is a leading designer, manufacturer and marketer of high quality single-use disposable medical products.

**Innovations and Continuous Improvement.**  
Our success is rooted in our commitment to quality in all aspects of our operation. PLASTRUE is committed to highly qualified and trained personnel, and quality is built into every Medical and Health Care product made at PLASTRUE through our commitment to the finest quality of suppliers.

**We produce high quality products to the international standards requirements.**  
Quality is achieved by working to audited procedures throughout the organization. It is the responsibility of every employee to ensure that these procedures are followed. The Quality Management System, Quality Policy, and Quality objectives are established and regularly reviewed by the management. These are continuously improved to ensure their ongoing effectiveness and efficiency.

**Improving the safety and cost of health care for generations to come.**  
PLastrue Factory is committed to provide its customers with the best quality products that meet their expectations in terms of variety, production flexibility, availability and price. PLASTRUE produces safe and reliable medical products for the health care industry with consideration given to utmost quality. It is our policy to continuously monitor and identify our customers' quality needs and promptly meet their expectations today, while concurrently anticipating the requirements of tomorrow.

IV Set	Micro-Drip Burette	Blood Set	Oxygen Mask	Suction Tube
--------	--------------------	-----------	-------------	--------------

# Our Products

## Micro-Drip Burette

- \* Air vented cover with an extra injection site
- \* Latex free Y-injection site
- \* Roller clamp
- \* Luer lock connector
- \* 60 drops chamber
- \* Fluid filter - 15µm
- \* Air vented spike
- \* Instant stop clamp
- \* Cuts off solution flow instantly
- \* Safety shut off valve

## IV Set

- \* Air vented spike
- \* Latex free Y-injection port
- \* Roller clamp – allows easy adjustment of the drip rate
- \*With - Y Site
  - Filter
  - 3-Ways Stopcock
  - Extension
  - Dial Flow
  - Needle
  - FlashBack & Luer Lock

## Blood Transfusion Set

- \* Air vented spike
- \* 200 micron blood filter
- \* Roller clamp
- \* 50cm tube length
- \* 18G x 3.75cm vein needle
- \*With - Needle
  - Male Luer Lock
- \* Without - Air Filter

Oxygen Cannula

Three Way Stopcock

IV Extension

IV Set with Y site

Child Oxygen Mask

# Our Products

## IV Extension

One end luer lock with cap, another end luer slip with cap, and the length can be specified.

- \* Male luer lock connector
- \* Connector cap
- \* Kink resistant tubing
- \*With - 3-Way Stopcock
